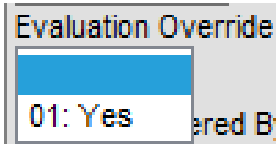
CIITS Job Categories and Evaluation Override

- Data in IC will be used to align certified staff who will be evaluated to a job category. Job category aligns them to the correct evaluation framework in CIITS.
- Job categories will be determined using **Type / Alternate Type** value on a person's active assignment records in IC.
  - Type / Alternate Type must be the same on all of a person's active assignment records within one school in IC.
  - Type/Alternate Type may be different between schools in IC.
    - If Type/Alternate Type value is different between schools, the New field on the District Assignments tab "Evaluation Override" must be set to specify which value the person should be aligned with when determining job category.



» Only needs to be set for certified staff who have different Type/Alt Type values between schools.

Educators Serving Multiple Schools

- **Infinite Campus Set Up**
  If the Job Category is different between schools, the New field on the District Assignments tab "Evaluation Override" must be set to specify which value the person should be aligned with when determining job category.
- **Evaluation Override:**
  Only needs to be set for certified staff who have different Job Categories between schools. The Evaluation Override will NOT determine the institution in which the certified staff will be evaluated. The person will still show up in all assigned schools but under the evaluation window that was selected as the Override.
- **Educators – Multiple Schools**
  Educators' evidence in EDS can be accessed or viewed by leadership at any of the institutions/schools to which he/she has been assigned. The Educator does **not** have to change their default institution at any time. The Educator must share the Student Growth Goal with the individual who is their evaluator. **All** leadership can view the **progress** of the Student Growth Goal. Only the school leadership with whom it has been shared can **access the contents** of the SGG until it has been scored and completed, at which point all leadership can view the completed SGG.

Framework & Window Check

- We ask that all **Teachers** and **Other Professionals** login to CIITS **NOW** to ensure they see the **correct framework**.
- We ask that all **Principals** login to CIITS **NOW** to ensure their teachers and other professionals are showing up in the **correct window**.
- Please do **NOT** wait until the day you need to use the tool. Thanks!!!

Professional Development Survey

On Aug. 7, districts received a brief survey (2 questions) in which we asked for the percentage of district staff who participated (or will participate) in any type of CIITS learning opportunities during the period from Aug. 1, 2012 - Dec. 31, 2015. The information will help determine your final (RTTT) percentage for this measure. The goal was 100 percent. The survey was due Aug. 14.
